Agile Coaching

 Live Online Training

18 Stunden

Inhouse-Paket : Auf Anfrage

Nr.: 12128

Agility has long been more than just a trend - it is a decisive success factor for companies that want to survive in dynamic markets. But agile transformation presents teams and managers with new challenges: How can change processes be effectively supported and employees provided with long-term assistance?
In this practice-oriented training course, you will develop a sound understanding of the role of the agile coach. You will learn key methods such as Scrum, Kanban and the Spotify approach, reflect on agile values and principles, and explore topics such as change management, team dynamics and coaching formats.
After completing the training, you will be able to effectively support agile teams, actively shape change processes and professionally fulfil your role as an agile coach.

Wer sollte teilnehmen:

Zielgruppe

Managers and employees who work in companies that are about to embark on or are in the early stages of an agile transformation. Individuals who are interested in understanding the role of the agile coach and developing their skills in this area.
